Subject: Microsoft settlement

Lets get on with it ! Microsoft has done everything that has been wanted by the DOJ, and there offer of settlement to the states is more than admirable. There business practices are above average by far. Settle this group of hearings,and spend some time finding out how many Attorney Generals are up to their hips with Enron.

Lets not keep trying to knock the king off the hill,and thank them for all the good they have done and are continuing to do.If it were not for Bill Gates and Paul Allen I probably would not be sending you this message. Thank you.
